EDUCATION

KL University

Bachelor of Technology in Computer Science (Cloud Native Engineering & DevOps)

Vijayawada, Andhra Pradesh

July 2024 - July 2028

EXPERIENCE

Cloud & DevOps Intern

May 2026 – July 2026

Sumerix Global

Remote

- Designed, deployed, and hosted a personal portfolio website on AWS using Amazon EC2, Amazon S3, and CloudFront.
- Configured Amazon CloudFront and Amazon S3 for secure, scalable hosting and efficient delivery of static website assets.
- Created and managed Amazon S3 bucket policies and permissions to securely host static website assets.

Open Source Contributor

June 2025 – Present

Social Summer of Code & Open Source Connect India

KL University, Vijayawada

- Contributed to 12+ open-source repositories by developing features, resolving bugs, and improving React-based user interfaces.
- Merged 30+ pull requests across active projects by following Git workflows, collaborative code reviews, and version control best practices.
- Worked with distributed teams to understand project requirements, debug issues, and deliver scalable frontend solutions.

PROJECTS

Synapse - RAG-Based AI Assistant | Python, LangChain, FAISS, OpenAI API

GitHub

- Built a Retrieval Augmented Generation (RAG) assistant for document-based question answering.
- Implemented document chunking, vector embeddings, and semantic search using FAISS.
- Integrated LLMs for context-aware response generation from custom knowledge bases.

AirCanvas - Gesture-Based Virtual Air Canvas | Python, OpenCV, MediaPipe, NumPy

GitHub

- Developed a real-time gesture-controlled air writing system using OpenCV and MediaPipe hand tracking.
- Optimized rendering logic for smooth low-latency interaction and immersive visual feedback.

User Authentication System | Java, Spring Boot, Maven, JWT, BCrypt, MySQL

GitHub

- Developed RESTful authentication APIs for user registration and login using Spring Boot, Spring Security, and Maven.
- Implemented JWT-based authentication and BCrypt password hashing to ensure secure authorization and encrypted credential storage.
- Integrated MySQL with Spring Data JPA for persistent user management and built modular APIs following layered architecture.

CERTIFICATIONS

- Google AI/ML Virtual Internship (AICTE EduSkills) — 10 Weeks
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate — Jan 2026
- Claude Code in Action by Anthropic
- Agentic AI Day Hackathon — Sep 2025

TECHNICAL SKILLS

Languages: Java, Python, C, SQL

Frontend: React.js, HTML5, CSS3, TailwindCSS

Backend: Node.js

Cloud & DevOps: AWS (EC2, S3, CloudFront), Oracle Cloud Infrastructure, Docker, GitHub Actions

AI/ML: LangChain, FAISS, OpenAI API, OpenCV, MediaPipe

Developer Tools: Git, GitHub, VS Code, Eclipse, PyCharm

Problem Solving: 120+ LeetCode problems, 300+ CodeChef problems (Java)

Productivity Tools: Google Workspace (Docs, Sheets, Slides), Microsoft Office
